

Melissa Cross

We are honored to award a college scholarship to Melissa Cross, an Alumni Association member of the Class of 2023.

Melissa is currently attending New Mexico State University, Las Cruces, New Mexico. Her major is pre-nursing, and she plans to obtain her nursing degree to become a NICU (Neonatal Intensive Care Unit) nurse.

Melissa belongs to the Student Nurse Association, and also volunteers with various community health programs and events. In addition, she loves to participate in different events at her local church. Her college Aggie Experience program has allowed her to share that experience with other potential freshmen students.

Melissa has maintained an excellent academic record of 3.65. She has consistently demonstrated remarkable academic and leadership skills, and is committed to excellence in all she attempts.

Melissa began working part time at a campus dormitory hall as soon as she started college; she finds this position very rewarding, as she is able to assist other students with issues they may need help with.

Melissa has demonstrated outstanding service to others. She has maintained a clear sense of purpose and will apply her love of knowledge to make the world around her better.

We wish Melissa continued success!
