

Noah Davis

Noah's proud parents are Tina and Christopher Davis. His mother, Tina Marie Johnston, is an Alumni Association member from the class of 1996. During his high school career, while taking demanding advanced placement and honors courses, Noah earned a GPA of 4.22. After applying to several universities, he plans to attend California Polytechnic State University, San Luis Obispo, with a major in software engineering. He wishes to become a software engineer after earning his degree.

Noah has received numerous academic awards, along with being very involved in his school and community: he has volunteered innumerable hours in various leadership roles and activities. He's been named to the Principal's List, the Block L Award for academic excellence, the California Scholarship Society, and the Elks Student of the Quarter in 10 - 11 grades.

He also participated in SkillsUSA Engineering and Design Regional Competition, earning a proud 2nd place in his division. Noah has been a dedicated member of the Associated Student Body in grades 7-12th, while participating as treasurer in other school clubs.

His commitment to excellence is evident not only in the classroom: he has devoted countless hours to his community through his church's AWANA program, mentoring students, and participating in various education related activities. All the while he worked hard at maintaining his impressive academic record. A focus of Noah's community service was working with the elderly population at the Comprehensive Care Center.

Noah has demonstrated outstanding service to others and with his enthusiasm and dedication, he has maintained a clear sense of purpose during his attendance at Lompoc High School. We wish Noah continued success as he pursues his college education and career goals. Best of luck and Congratulations, Noah.
